An initiative by

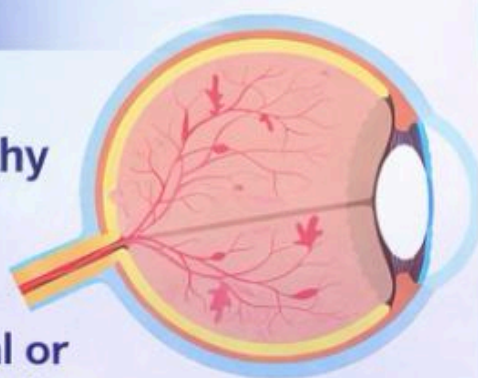

Leading Engagements to Advance Patient Care in **Ophthalmology**

Supported by

LEAP - Ophthalmology is a unique problem-solving, learning, and engagement program designed by the country's top retinologists at VRSI, supported by Roche.

- Inspire innovative thinking among the next generation of Retina Specialists
- Serves as a bridge between clinical environment and creative problem-solving
- Mentorship and peer collaboration opportunities
- Opportunity to develop practical, scalable solutions to real-world problems
- Recognize and support innovative impactful solutions

Challenge Buckets

Real-world challenges facing the retina care ecosystem are organized into **Three Challenge Buckets**, each targeting critical intervention points in the patient journey.

01 Awareness & Screening

- 01 How will you create a self-propagating awareness drive on social media?
- 02 How can you increase referrals from physicians for screening using technology?
- 03 How can DR awareness be created in a rural scenario without significant access to social media, but with access to mobile phones?

02 Knowledge Dissemination

- 01 How can treatment options and scenarios be explained to a patient in uniformity?
- 02 How can patient expectations be managed by self-explanatory resources?
- 03 How can patient feedback regarding treatment be harnessed for improvement of services?

Treatment Maintenance

- 01 How can you use technology to maintain treatment schedules for anti-VEGF?
- 02 How can you demonstrate outcomes of non-compliance in a digital format?
- 03 How can you reduce patient loss of working days and expense for attending clinics for repeated interactions?

Rewards & Recognition

The Top 5 Solutions earn an exclusive invitation to the VRSI Annual Conference for a face-to-face presentation before the grand Jury.

The Five Fellows and their Mentors will receive complimentary registration to the conference, providing unparalleled networking opportunities with the country's leading retina specialists

Final Winners will be recognized with **LEAP Scholarships worth up to INR 3 Lakh* each**

• **Solution Submission Deadline: 30 June 2026**
